SHILPSETU & BHARAT CULTURAL GENOME

Official 3:30 Minute Screenplay, Timed Voiceover Script & Production Walkthrough

TARGET VIDEO LENGTH	TOTAL WORD COUNT	AUDIO TONE	TARGET RESOLUTION
3 Minutes 30 Seconds	486 Words (138 WPM)	Authoritative • Passionate • Academic	1080p 60fps (1920 × 1080)

Executive Pitch for Judges (One-Liner): *"India's rich cultural heritage faces a dual crisis: sacred traditions and ancient instruments remain frozen in silent stone carvings, while living traditional artisans are marginalized by generic e-commerce algorithms. ShilpSetu unites an offline-first Cultural Genome Map and Aural Heritage DSP Synthesizer with zero-smartphone voice cataloging and statutory living-wage protections to create India's first end-to-end Cultural Heritage & Living Artisan Ecosystem."*

1 Video Structure & Strategic Timeline Overview

Segment	Timestamp	Visual Focus (Screen Recording)	Strategic Judging Hook
Scene 1	`0:00 – 0:35`	The Dual Heritage Crisis: Silent Temple vs Struggling Artisan	Immediate emotional and systemic hook aligning with MoSJE & AICTE.
Scene 2	`0:35 – 1:15`	The Cultural Genome Map: 10 Layers, DNA Heatmap & Timeline	Proves traditions transcend political state borders with 100% offline MapLibre.
Scene 3	`1:15 – 1:55`	Naad-Virasat: Physical String/Drum DSP on Temple Carvings	"We give voice to stone" — 4 Natyashastra instrument synthesis.
Scene 4	`1:55 – 2:30`	Cultural Motif Decoder & Student Citation Lens	Honest Knowledge Vault: zero AI hallucinations & 1-click thesis citations.
Scene 5	`2:30 – 3:05`	The Artisan Economic Engine: Zero-Smartphone IVR & Living Wage	Direct linkage to NBCFDC/NSFDC makers with statutory ₹43.75/hr floor.
Scene 6	`3:05 – 3:30`	Digital GI Sovereign Passport & Viksit Bharat Vision	Memorable, inspiring patriotic closing on safeguarding 5,000 years of culture.

2 Why ShilpSetu Beats Existing Platforms

Dimension / Capability	Google Arts & Culture	IGNCA / Govt Archives	E-Commerce (Etsy, Amazon)	ShilpSetu (Our Prototype)
Cultural Reach	Static Museum Objects	Textual PDF Catalogues	Commercial SKU Listing	**Living Artisans & Deep Lore**
Ancient Instrument Acoustics	None (Silent Photos)	Rare Academic Recordings	None	**Live Touch Web Audio DSP Synthesizer**
Geographic Lineages	Isolated Point Pins	State-by-State Folders	Shipping Postal Codes	**Border-Agnostic Cultural DNA Heatmap**
Marginalized Maker Access	No Maker Linkage	Archival Only	Requires Smartphone & English	**Zero-Smartphone Dialpad IVR (Bhashini)**
Artisan Wage Protection	**None**	**None**	**Race to Bottom Price Slashing**	**Statutory Living-Wage Floor (₹43.75/hr)**

3 Complete Director's Cut Screenplay (Part 1: Scenes 1 – 3)

TIME	SCREEN RECORDING ACTIONS (WHAT TO SHOW & CLICK)	VERBATIM SPOKEN VOICEOVER (READ WITH PASSION)
`0:00 - 0:35` (35 sec)	**SCENE 1: The Problem & Vision** ▪ **0:00**: Start on unauthenticated Home / Explorer Shell at `/explore`. ▪ **0:10**: Split or pan briefly to an authentic craft photo (e.g. Gorakhpur Terracotta Handi or Chanderi silk). ▪ **0:20**: Pan over to the **Bharat Heritage Atlas** showing the map of India. ▪ **0:28**: Transition to the master header logo: *"ShilpSetu: Ministry of Social Justice & Empowerment / AICTE PS 26197"*.	*[Tone: Serious, urgent, visionary. Start at a measured, confident pace.]* "India is home to over **five thousand years** of continuous artistic civilization. `[0.5s pause]` Yet today, our sacred cultural heritage faces a devastating double crisis. Ancient musical instruments and temple motifs remain **frozen in silent stone carvings**, while millions of traditional grassroots artisans are pushed to the economic margins by algorithms that treat sacred heritage as disposable commodities. *[Inspiring shift]* Welcome to **ShilpSetu and the Bharat Cultural Genome** — India's first autonomous, AI-powered Cultural Intelligence and Living Artisan Ecosystem."
`0:35 - 1:15` (40 sec)	**SCENE 2: Cultural Genome Map** `Keys 1, 3, 5` ▪ **0:35**: Switch to `/genome.html`. Press `1` to showcase all 10 cultural layers with Survey of India boundaries. ▪ **0:48**: Press `3` (Warli Painting). Watch glowing cyan-amber **Cultural DNA Heatmap** link Maharashtra to Gujarat (Pithora), Odisha (Saura), and MP (Gond). ▪ **1:02**: Press `5` (Kathak Timeline). Drag the slider across **1200 → 1500 → 1800 → 1947 → Today** as the camera flies across cities.	*[Tone: Analytical, astonished, pointing out breakthroughs.]* "We begin with the **Bharat Cultural Genome Map**, operating completely offline on native vector layers. Culture does not stop at modern political boundaries. `[0.4s pause]` When we explore Warli art, our **Cultural DNA Algorithm** illuminates its kinship with Pithora in Gujarat, Saura in Odisha, and Gond in Madhya Pradesh — mapping shared tribal motifs, natural pigments, and centuries of migration. Through our **Spatial-Temporal Timeline**, students can trace the 800-year evolution of Kathak — from temple storytelling in Braj, through Mughal royal courts, to the global concert stages of today."
`1:15 - 1:55` (40 sec)	**SCENE 3: Naad-Virasat (Audio DSP)** ▪ **1:15**: Navigate to `/explore` → **Naad Virasat** tab (or `/?view=naad-virasat`). ▪ **1:20**: Detect the 12th-century Hoysala temple relief of **सरस्वती वीणा (Saraswati Vina)** from Belur. ▪ **1:27**: Click **"Lift Out & Enter Playing Studio"** — strum the strings directly over the stone relief; note the granite pulse. ▪ **1:38**: Click **"Evolutionary Lineage" (कालक्रम)** — toggle **Ancient Approximation** vs **Modern Thanjavur Saraswati Vina**. ▪ **1:48**: Briefly flash **Evidence & Provenance** drawer showing *Natyashastra*, *Sangita Ratnakara*, and ASI citations.	*[Tone: Mesmerizing, reverent, showcasing cutting-edge DSP.]* "Next is our most poetic breakthrough: **Naad-Virasat — Aural Heritage Reconstruction**. We don't merely look at sculptures; **we give voice to stone**. `[0.4s pause]` Here, our vision pipeline identifies a 12th-century Hoysala relief of **Goddess Saraswati holding the sacred Vina** from Belur temple. In the Playing Studio, we physically synthesize its acoustic vibrations using fractional-delay string modeling and monolithic mandapa convolution reverb. Our **Evolutionary Lineage A/B Comparison** lets users hear how this ancient temple form evolved over 800 years into the modern **Thanjavur Saraswati Vina** — with an **Evidence and Provenance drawer** anchoring every tone in the *Natyashastra*, *Sangita Ratnakara*, and ASI surveys."

3 Complete Director's Cut Screenplay (Part 2: Scenes 4 – 6)

TIME	SCREEN RECORDING ACTIONS (WHAT TO SHOW & CLICK)	VERBATIM SPOKEN VOICEOVER (READ WITH PASSION)
`1:55 – 2:30` (35 sec)	**SCENE 4: Motif Decoder & Student Lens** ▪ **1:55**: Open **Motif Scanner** via login screen or header button. ▪ **2:05**: Trigger photo scan of Gorakhpur terracotta peacock motif with **Golden Reticle Viewfinder**. ▪ **2:15**: Toggle **"Student Lens" (छात्र लेंस)**. Show source confidence badges, primary references, and click **"Cite this"** to reveal the permanent archival link.	*[Tone: Clear, scholarly, emphasizing honesty & privacy.]* "Our **Cultural Motif Decoder** elevates computer vision into an honest scholar. Unlike commercial AI that hallucinates fake centuries or fictional GI certificates, ShilpSetu operates on a verified, audited knowledge base. Through the **Student Lens**, researchers and university students inspect primary archaeological citations and generate standardized academic citations with a single click — complete with immutable archival permalinks, all processed with zero-login DPDP privacy."
`2:30 – 3:05` (35 sec)	**SCENE 5: The Artisan Economic Engine** ▪ **2:30**: In `/genome.html`, click **"Support this Living Tradition"** → opens artisan craft listing. ▪ **2:40**: Cut quickly to the **Keypad Phone Simulator**: show an artisan dialing IVR and speaking Hindi/Bhojpuri to catalog a craft via Bhashini. ▪ **2:52**: Show **Vyapar-Niti Fair Pricing Card**: point to statutory living-wage floor (₹43.75/hr) and **ONDC Publish Badge**.	*[Tone: Passionate, pragmatic, socially impactful.]* "Crucially, heritage cannot survive if its makers starve. `[0.4s pause]` ShilpSetu bridges cultural research directly to grassroots economic survival. For artisans without smartphones or literacy, our **Zero-Smartphone Voice-IVR Engine** lets them catalog crafts over a standard keypad phone call in their native dialect. Our **Vyapar-Niti Pricing Engine** guarantees a statutory living wage, protecting artisans from middleman exploitation before publishing directly onto the national ONDC network."
`3:05 – 3:30` (25 sec)	**SCENE 6: Sovereign Passport & Conclusion** ▪ **3:05**: Open `/verify/CRAFT-NBCFDC-002` showing the **Digital GI Sovereign Seal** with DCT steganographic watermark. ▪ **3:15**: Pan back to the grand view of the Cultural Genome Map with festive ribbons and artisan clusters glowing across India. ▪ **3:26**: End on full screen title card: *"ShilpSetu: Preserving Heritage • Empowering Artisans • Viksit Bharat 2047"*.	*[Tone: Inspiring, patriotic, commanding final call to action.]* "Every authentic craft carries an invisible, tamper-proof 2D-DCT watermark — a sovereign digital passport linking physical buyer to living maker. From temple carvings frozen in stone to the hands of rural artisans weaving our future — **ShilpSetu protects India's rich cultural memory and builds a self-reliant Viksit Bharat**. `[0.5s pause]` Jai Hind. Thank you."

4 5-Minute Practical Screen Recording Checklist

💻 Browser Setup & Window Framing

- ✓ Open Chrome or Edge in a maximized **1920 × 1080 (16:9)** window.
- ✓ Set browser zoom to **100%** (press `Ctrl + 0`).
- ✓ Hide the bookmarks bar (press `Ctrl + Shift + B`) for a clean presentation canvas.
- ✓ Pre-open the following tabs in order:
  1. ✓ `http://localhost:5173/explore` (Public Explorer)
  2. ✓ `http://localhost:5173/genome.html?demo=1` (Cultural Genome Map)
  3. ✓ `http://localhost:5173/?view=naad-virasat` (Naad-Virasat Studio)
  4. ✓ `http://localhost:5173/?view=storefront` (Artisan Storefront)
  5. ✓ `http://localhost:5173/verify/CRAFT-NBCFDC-002` (GI Passport)

🎙️ Voiceover & Audio Recording

- ✓ Use a USB microphone or headset in a quiet room with minimal echo.
- ✓ Keep recording software (OBS Studio or Windows Game Bar `Win + G`) set to **1080p 60fps, 320kbps AAC Audio**.
- ✓ Speak in a relaxed, confident cadence at ~135–140 words per minute.
- ✓ Observe the `[pause]` markers in the script — deliberate 0.5-second pauses give the judges time to absorb the visual animations.
- ✓ Keep background music faint (10–12% volume) with an ambient tanpura or flute drone so your voice stays crystal clear.

5 Cultural Genome Map Live Demo Hotkeys (Quick Reference)

Key	Feature / Scene Name	What Happens on Screen (Automated & Deterministic)
1	**All 10 Cultural Layers**	Resets view to pan-India extent; activates all 10 layer chips (Dance, Music, Crafts, Architecture).
2	**Warli Painting Deep Dossier**	Flies camera to Dahanu, Maharashtra; opens side dossier with Devanagari narrative & MoSJE tag.
3	**Cultural DNA Similarity Heatmap**	Illuminates glowing organic blobs linking Warli to Pithora (GJ), Saura (OD), and Gond (MP) with weights.
4	**Oral Lore & Web Speech Narration**	Opens Warli marriage lore story card; triggers bilingual audio narration with source citation.
5	**Kathak 800-Year Timeline Slider**	Animates spatial-temporal evolution of Kathak across 1200 → 1500 → 1800 → 1947 → Today.
6	**Unknown India Discovery Drawer**	Filters rarity ≥ 4 endangered traditions; opens "Did You Know?" curiosity cards.
7	**Curated Heritage Journey Planner**	Draws SVG trail from Mumbai → Nashik → Chhatrapati Sambhajinagar with workshop stops.
8	**Festival Pulse Calendar Ribbon**	Expands 12-month calendar ribbon linking living craft cycles to seasonal sacred festivals.
9	**Ask the Atlas Bilingual Search**	Opens real-time smart search modal with instant camera flight to any tradition in Hindi/English.
Esc	**Close Overlays / Clear View**	Closes any active modal, drawer, or search overlay cleanly back to full map view.
